## ACKNOWLEDGEMENTS

**Patrick**, ever since I did my first internship in Aachen you are my supervisor. Thank you for giving me the chance to do my master thesis with you in Groningen and of course thank you for giving me the chance to continue on this as a PhD student in your group. Within these 3.5 years I learned a lot of new things and you always gave me good advice and enough time. Our discussions have tremendously helped me on my way through the PhD, which I would have not been able to finish without you. Thank you for everything.

**Henk**, thank you for giving me the opportunity to do my PhD in the department. As my promotor you always showed a great amount of trust towards my work. In the regular meetings you gave me a lot of valuable tips, which helped me to improve my work.

**Joop, Roel, Theo and Willem**, you were always out there for discussions and practical help when I needed it. You thought me a lot of new things in the labs and were always willing to invest your time to help me out. That made working in the department easier and more interesting and I'm very grateful for that.

To **everybody in the BME department**, I really enjoyed working in this place and I want to thank all of you for your help, the good atmosphere at work, lively discussion during coffee break and all the fun on lab-days.

**Agnieszka, Barbara, Deepak, Ed, Jan, Qihui and Stefan**, I very much enjoyed all of your companies in- and outside the department. Every lunch but especially every beer Fridays after work was great fun with you guys. Thank you for that.

A special thanks to **Knollepiet** for translating my summary.

**Qihui**, my buddy, I'm very thankful for all your help in the lab. You were never too busy for helping me with anything. Sharing an office with you was a great pleasure and good fun. I'm happy that you joined Patrick's group and that we could share all the trips to conferences together. You are a good friend and together with **Yingruo** you luckily introduced me to the great Chinese cuisine. 謝謝.

**Eliza and Karolin**, we lived together in Badhuisplein, which I enjoyed very much. Thank you so much for all our conversations, your tips and all the great dinners. I will always keep this time in very good memory.

**Barbara**, my pointless friend, you have been in Groningen from the beginning of my PhD and you are one of the reasons why I felt home there so quickly. You were my only co-worker in Patrick's group in the beginning and I enjoyed working with

you a lot. But more importantly, I enjoyed all the parties, barbeques, dinners, trips and free time we spend together. Literally everything I know about wedding dresses I learned because of you. I'm happy to call you my friend and that you agreed to travel to Groningen just to be my paranymph. Thank you for everything.

**Ed**, you are the better half of the awesome two and were one of my best friends Groningen. Together we shared the best office in the UMCG. The atmosphere in the office and all the discussions we had, sometimes even scientific ones, made it a pleasure to come to work every day. You almost never got sick of all the cologne stories I forced upon you, thank you for that. I enjoyed our time together a lot. Whether we had discussion about bears or how to become a millionaire or played football with slightly dubious people, I enjoyed all of it very much. I'm also very thankful, that you agreed to travel to Groningen to be my paranymph.

**Mama, Papa, Engeltrud und Ralf**, es ist schwer in Worte zu fassen, was ihr alles für mich getan habt. Ich bin übergücklich über all das Interesse und das Vertrauen was ihr mir entgegenbringt. Sehr vielen Dank für all eure Unterstützung, ohne die es für mich niemals möglich wäre, ein so schönes und glückliches Leben zu leben.

**Olga**, es ist unmöglich dir für all die bedingungslose Liebe und Unterstützung zu danken, die du mir gibst. Du machst mein Leben lebenswerter. Danke für alles.
